

## SADDLEBACK'S FAIR TICKET PRICING PLAN

At Saddleback, we believe pricing in the ski world has become far too complicated and leaves most people with the feeling – and rightfully so – that the person on the lift next to them probably paid a lot less for their ticket. We believe there is a better way – the Saddleback way.

With our new high-speed detachable quad, the improvements we're making to the lodge and the expansion of our snowmaking system, we're excited about what we're going to be offering. Instead of all sorts of discounting that leaves some people paying full price and others, on that same day paying far less, we're going to give the same price to everyone. **Our Fair Ticket Pricing Plan** is intended to make skiing and riding more accessible and fair to everyone, but is also intended to allow the mountain to be sustainable and remain sustainable.

*Without you, we're just another mountain and we're not just another mountain.*
