SKI & RIDE with CARE

BE ALERT!
Alpine skiing and snowboarding are challenging and potentially hazardous recreational activities. Be alert to ever changing mountain conditions, weather, visibility, and snow surfaces. Many natural and man-made obstacles, including other skiers and riders, exist on the mountain and may cause serious injury or death to you if you do not take notice of these obstacles. Sledding, sliding, and tubing are prohibited on all ski/ride trails, the Terrain Park, and around the Lodge at all times. **Your safety is directly affected by your judgment.** Failure to ski or ride responsibly may result in the loss of your skiing/riding privileges. Please stay away from snowmaking, grooming and snowmobile equipment at ALL times.

BE ADVISED
All poles and/or flags, fencing, signage and padding on equipment or objects or other forms of marking devices are used by the ski area to inform you of the presence or location of a potential obstacle or hazard. These markers are no guarantee of your safety and will not protect you from injury. It is your responsibility to avoid potential obstacles or hazards.

RIDING LIFTS
Saddleback has 4 chairlifts, 1 t-bar and 1 moving carpet. If you are unfamiliar with the use of any lift or do not have the ability to use one safely, ask the lift operator or assistant for instructions BEFORE attempting to load or unload from the lift. When riding in chairlifts please always lower the retention bar.

LEARNING AREAS
The trails located around the South Branch Chairlift are designated as Slow Areas and may be congested. Please go slowly and use extra caution here.

TRAIL CONDITIONS
Conditions change throughout the day. Check with Ski Patrol or Ticket Office for current conditions and ski/ride on groomed trails if you are uncertain of conditions on other trails.

BOUNDARY to BOUNDARY SKIING
Boundary to Boundary is defined as the area between Muleskinner and Hudson Highway. No sled rescue is available beyond Muleskinner and Hudson Highway. Boundary-to-Boundary means skiers and boarders may, at their own risk, ski/ride the woods within open trail boundaries. This type of skiing is for highly advanced skiers and riders.

- Do not ski/ride into areas or trails that are closed.
- Gladed terrain is left in its natural state; it contains unmarked hazards such as cliffs, rocks and fallen trees.
- Do not ski alone - please always go with a partner(s).
- Enter and exit the woods from an open trail only.
- Do not proceed past roped off areas.
- Beware of unmarked obstacles and hazards in the woods.

Saddleback, Inc. assumes no responsibility for damaged ski/ride equipment or the safety, injury, or death to skiers/riders who venture from marked trails or while using marked trails. Rescue of an injured person from an unmarked area is extremely difficult and takes considerably longer than a normal rescue. Not all trails are closed by the Patrol at the end of the day, especially the glade trails. Entering the woods from marked trails is your choice and you, alone, are responsible. Ski & Ride Smart - Ski & Ride Safe!

PARKSMART (Freestyle Terrain)
Using Freestyle Terrain exposes you to risk of serious injury or death. Inverted aerial maneuvers are not allowed at Saddleback.
